

June 7, 2013

Dear Sandra,

Thank you so much for taking me as an intern in this busy and exciting time in your life! Seeing that you were so ready to help me when we had only just met was great because I can't say that many other people would have done that for me.

You taught me so many things while I was with you, like how to present myself at meetings by participating and offering valid feedback to show I was paying attention. You also taught me that taking on a lot of jobs can be both good and bad. I feel that being busy is important in working in the community but I shouldn't be overwhelmed. I had fun visiting the vault and ATM with you because it helped sate my long endured curiosity about banks.

You were the greatest person I could have asked for to help with my internship. Thank you for taking the time to help me as much as you did—it's much appreciated. I can't wait to see you again to visit the headquarters and talk about your trip!

Best,

Savannah Gomes
