

ABOUT US

Telltale Books began with the dream of a young girl who could not find a bookstore she loved after her favorite one, Borders, closed down. In an attempt to recreate the atmosphere she so much loved, Telltale Books was opened and now offers services similar to Borders, but also is a unique shop where you can come to relax and read with friends. Unlike a library, Telltale Books is a safe environment to talk and have a laugh, but the books are not to rent. If you want to take one home, you have to buy it! Even so, the entire store is the result of this girl's determination and perseverance.

Our store houses a great variety of books, from the classics to children's books. We also sell movies and CDs, though the concentration on these is smaller than that of books. A quaint café where there are snacks and drinks for sale sits at the back of the store and is also where weekly book club meetings are held. We invite you to come visit us to see what how the books will speak to *you*.

APPLYING FOR A JOB

We want a person who is ready and willing to take on the task of organizing books, checking out customers, and helping customers around the store. No experience is required. The café is also a potential place of work, for dishes need to be cleaned, coffees need to be made, and the floor needs to be swept. No experience required. For an application to either position, visit our store or go online!

ABOUT READING

In books is where you will find the answers to questions you think are too silly to ask. It's where you can confirm that the actions of the people around you are normal. Books, however, are not where you should learn everything about the world. A good writer gains material and insight through experience, not by what they have read or heard about. We readers need to get out into the world too! This does not mean that you should stop reading. Reading is a wonderful way to learn vocabulary and interesting writing styles. It's a way to stay entertained and a channel for imagination. After all, books are just as valuable when you are ten as when you are fifty.

OUR FAVORITES:

- *1984* by George Orwell
- *Thirst* by Christopher Pike
- *Ender's Game* by Orson Scott Card
- *Starters* by Lissa Price
