

Pennies for Patients

March 4- 22

What is Pennies for Patients?

- Students collect funds, in the form of spare change, to support research and patient services for those with blood cancer.
- More specifically those with leukemia and lymphoma, through the Leukemia and Lymphoma Society (LLS).

Our Goal

- Last year the school raised \$600.
- This year our goal is \$800.

Making Leukemia Disappear

- We're going to place the word "leukemia" in the multi. Each time the school collects \$100 we will remove one letter until it disappears.

Frequently Asked Questions

- Where do we put the money?
 - Each advisory will have their own box to collect coins.
- How do we know how much money we've raised?
 - There will be graphs in each advisory and a graph for the whole school in the hallway. They'll all be updated weekly.
- Can we donate more than pennies?
 - YES!

Incentive

- Pizza Party for the advisory that raises the most money throughout the three weeks of Pennies for Patients!

Thanks!
Any questions?
