

Senior Project Research Paper

Name: Savannah Games

Directions: Your senior project research paper must be reviewed and edited 3 times by 3 different faculty members before you are done with your research paper. This guarantees that you will have written a research paper that meets graduation requirements.

You must edit your paper and make the corrections/ changes each time you meet with one of your three reviewers. Do NOT conference with one of your reviewers if you have not made corrections from your previous conferences. When you give your paper to a reviewer, give them the current draft and the other edited drafts so that they can see the progress. They will sign this paper once you have made the proper corrections.

Editing Schedule:

1. Blackstone Coach
